The advantages and disadvantages of travelling by train

When people decide to travel, they always need to consider the means of transport. Is it better to use public transport, like trains for example, or go by car? What would you choose?

Travelling by train has many advantages. First of all, there are no stressful traffic jams, and trains are fast and comfortable. Also, you can use the time in different ways, for example, you can just sit and read, or watch the world go by. You can also have a meal or a snack in the buffet car.

However, travelling by train also has some disadvantages. For one thing, it is expensive and the trains are sometimes crowded and delayed. What is more, you have to travel at certain times and trains cannot take you from door to door, for example, you need a bus or a taxi to take you to the railway station.

Despite the disadvantages, I prefer travelling by train to travelling by car because I feel more relaxed when I reach my destination.
